Inter State Commerce Bill.

great railway systems, notably those in the traffic department, are preparing to obey the law to the letter. A high offlcial of one of the greatest corporations in the country said yesterday to a Globe-Democrat reporter that there would be no effort to evade the provisions of the measure. mt that it would be simply impossible for the roads to perfect their arrangements for obeying the law within sixty days from now. The Missouri Pacific, for instance, is in thirty-seven pools and associations. It is true that upon the date when the inter-state commerce bill becomes a law pools are no more, but the associations will

be kept up and reciprocal rates maintained. In order to transact business, new tariffs must be issued applying to every station on the 6000 miles of the Gould system, and a meeting of each of the thirty-seven associations mentioned must be held before this can be intelligently done. The result will be that when the sixty days roll around probably 50 per cent. of the rates will have seen fixed, and the other 50 per cent. will have to suffer an arbitrary rate until the necessary meetings shall have been held. The railroads are working earnestly in order to prevent any unnecessary shock to the commercial interests of the territory through which they pass, but it will be impossible to attain the desired end within the alloted sixty days, and a great deal of friction will necessarily follow. Scarce y an official can be found is not in favor of carrying the law to the letter .- St. Louis GlobeALTAR AND TOMB.

FORT WORTH MARKETS-DAILY RE VIEW.

OFFICE OF THE GAZETTE, FORT WORTH, TEX., Feb. 9, 1887. Trade was a fair average to-day. Meats are firm with an upward tendency. Good butter is in demand.

The supply of eggs is in excess of the THE STATE OF TRADE.

Special telegrams to Bradstreet's from leading trade centers report only a moderate volume of business, except at St. Louis, Kansas City and Chicago, where considerable activity is noted. At most other points there are fair quantities of merchandise moving. At Baltimore, Galveston, Dallas and Providence, there is less animation. The labor troubles at the east have greatly disturbed business. New York's export trade has been interrupted from scarcity of coal and striking transportation employes. Within a week seventeen coastwise steamers have been delayed an average of over three days each from regular dates of sailing, and twenty two trans-Atlantic steamers an average of four and one-half days each. freights are lower, and tramp vessels are doing very little. Merchandise for the west has been delayed, but not so seriously. An indication of the effect on New York's commerce is seen in a decline of \$8,000,000 in this week's bank clearings as compared with a gain of \$158,000,000 in total New York clearings for the like

The labor troubles are shown by Bradstreet's to include 90,000 strikers throughout the country since January of which about 40,000 are at New York city and vicinity. Industries employing nearly 17,000 men have nad to shut down, owing either to want of coal or because of strikes of others. Lack of coal at the east for industrial uses will, if not soon overcome, produce widespread loss. Of-ficial bank clearings reports for January to Bradstreet's, from thirty-five cities, show a decline of over 6 per cent against January, 1886, due almost entirely to New York city's decrease of 124 per cent., caused in part by the effect of strikes on general trade. January clearings from other cities show an increase of 10 7-10 per cent. over January, 1886. Bank clearings this week aggregate \$1,005,000, Bank 000, against \$988,000,000 the week before, and \$1,087,000,000 the cor-responding week last year, an increase this week of 13 per cent., and a decline from last year of 74 per cent. With New York's decrease this week the following increased clearings are contrasted: Chicago, 87,200,000; Boston, \$4,600 000; Philadelphia, \$3,100,000, and and who never get to bed until 10 or 11 Baltimore, \$4,300,000. Mercantile collections are generally easier, though o'clock at night: who work without ceasing the whole of that time, and receive no Ohio valley and rising rivers, and unother emolument than food and the plain- seasonable weather in the southwest have est clothing. They understand some- checked remittances and orders from the

A continuation of the war scare and panic in European money markets harassed by a hundred responsibilities, brought further heavy sales of securities Now, that the inter-state commerce bill though driven and worried, though re- for foreign account, and caused a declinis to become a law, the officials of the proached and looked down upon, they ing tendency in stock prices. This was never revolt, and they can not organize aided by the hesitating and sensitive confor their own protection. Not even sickness releases them from their posts. No duced by the strikes and the doubtful sacrifice is deemed too great for them to feeling about the inter-state law. Formake, and no incompetency in any eign exchange is high and strong, with some apprehension that Europe may sell essays or books or poems are written in enough securities to cause gold to be

Higher prices have been recorded for iron steel, coal, coke, glass, cottons, wheat, corn, hog products and cattle, while sugar, coffee, pretroleum and flour are ower. All of these are less active at the east than last week, owing to the labor troubles. Eastern pig iron is scarce. A lemand for 500 tons of best grade, spot delivery, cannot be met in New York or Philadelphia. Bessemer pig is 25@50 higher at Pittsourgh, and Lake Superior furnaces bave advanced pig \$1 per ton since coke prices were marked up 10 cents per ton by the. pool. Bridge and car materials and pipe makers are freest buyers. Bessemer steel ingot and rail production in 1886 increased 50 per cent. from 1885, but it is believed to be at its height now. The president of one of the leading railway systems has declined to favor extensions of lines beyond those already provided

Anthracite is no higher at wholesale at New York or Chicago, but has advanced May at Boston. Retail prices depend on too Mail us the wrapper, with your address and a many influences to classify. Co'al is moving east more freely, but far below requirements. Bituminous is active. Pro-FLEMING BROS., Pittsburg, Pa. duction in 1886 is reported by Brad-street's at 74,000,000 short tons, against 65,000,000 tons in 1885. Total duction in 1886 is reported by Brad-

bituminous and suthracite mined in 1886 FORT SHAW, M. T., Feb. 8.—There are fourteen to twenty-five inches of snow on the level now on the ground. Cattle are suffering terribly. The fuel famine continues at Fort Blanton. Coal is \$60 per ton and extremely difficult to obtain at that figure. Wood is scapical and is sell-signate high figure.

Sales, 527.

Sales, 529.

Sa stimulated wheat in spite of the strikes, and corn, with smaller supplies, is also higher. Dry goods are more active at Boston than elsewhere, and many June. brands of cotton have acvanced ic per yard, with mills sold ahead and exports active. Woolens are depressed by recent is the low auction prices. Wool is not so strong. Some manufacturers are making to order only, and looms are idle at various points in New England and the middle states. The total number of failures in the United States reported to Bradstreet's this week have recently been committed in Mexico is 242, against 248 last week, 288 in 1886, 49 In 1885, 365 in 1884 and 276 in 1883. escaped Captain Lawton are now known to be with the Mexican desperadoes. In 34 last year. The total in the United a recent encounter with the Mexican nuthorities ten outlaws were killed, one of 1652 in five weeks of 1886, 1994 in 1885, whom was captured and subsequently 1623 in 1884 and 1884 in 1883.—[Brad-

A Boy of Fourteen Proves to be a Searched

For Mail Robber, Special to the Gazette. PILOT POINT, TEX., Feb. 7-Yesterday Postal Inspector S. H. Royall came here in search of the person who robbed the boys, and Puckett finding it too warm for cars overturned in the winter he entered the postal car under the charge conversation. Being a pleasant youngthe car some time. On reaching Bennet summer and the cold in winter. Rices Louisiana 4 2 25 4 c.

POULTRY—We quote: Young chickens, 52 90 per doz; old, \$2 90; turkeys, 50 6 7 5 c.

WHISEN—Rectified, \$1 10021 50, as per proof; aour-mash, two year old, \$1 6001 70; three year old, \$1 9002 20; fancy, extra old whishy, 21 000 20 20; fancy, extra old whishy, by more time. On reaching Bennet the car some time. his money, 8:45, in the bank and was a ked about town. When closely question-

> fessed, and was taken to Dallas. Prospectors to Fort Worth.

For the past ten days or two waeks there has been an unusual number of east-7.34) ern men looking at Fort Worth is, sa and its suburban surroundings. They have to a man represented large capital, and are not here in the role of idle sighteeers or lounging tourists. They same with a purpose, a distinct object haview. They came to see if a town of which they had heard much was worthy of its extensive advertisement, and if is afforded a field for the investment of mattey. In both respects they must have formed favorable opinions if actions are any evidence.

fair, 107-16c.

Sales 420 bales.
Futures opened and ruled steady, closing firm about it, it is nevertheless known that quite a number of important transaction of the color and suburban property Without any noise having been made tions in city and suburban property have been consummated. The total would make up a list that would be a surprise to many. All this can have but one meaning, that Fort Worth has ahead of it a season of prosperity. A flush era is about to dawn on the town compared with which its earlier booms were faint affairs. Already there is a feeling of re-awakened confidence and faith. THE KEY NOTE.

try. President Reall in his annual ad- ula of dress said the association had brought about good feelings between the farmers and the railroads and had secured the first recognition of the farmers by Con- of the Cutic gress, in the passage of the oleomargarine bill. Continuing, he said: "The workingmen are your brothers and demand the remedies for a sore after another her your interest and sympathy. They are sore after a resisting under the leadership of that before heali pure minded, honest, unselfish, wise man, T. V. Powderly, the tyranny of capital. I have studied the principles and nature of the Knights of Labor, and they are tou h. You are the men whom they contend with. Armour led the fight against the oleomargarine faw in the interest of fraud, counterfeiting and the robbing of the poor, and fought the last battle with the Knights of Labor in Chicago. We demand fair pay and entrammeled markets for the products of our labor; so do the Knights of Labor, nothing less, nothing more. Together we may save the country from im-

pending ruin. They and the farmers comprise a large majority of the people, and it but remains for us to act together for the good of both and to achieve such results within this year as will astonish the world. I have found capital selfish, dishonest, ignorant. It sucks the life blood of the element upon which it depends for sustenance. In its unscrupuloosness it will destroy the foundation of its life and strength. It is without principle and mercy, and if it cannot corrupt a man it will, if possible, destroy him. It is mercy, and unfeeling, unwise, more grasping and inconsiderate than the grim monster

Mr. Reall said neither the tariff nor revenue laws should be disturbed now, and business should not be continually menaced by threatened changes. off the public debt," he said, "promote agriculture, encourage American shipping and establish schools of art and science which will take up all the surplus in the treasury."

Mr. Reall was re-elected president Other addresses coinciding with President Reall's sentiments were delivered.

MANLY VIGO SUMMONING WITNESSES

To Testify Regarding the Alleged Outrage in Washington County. pecial to the Gazetta.

BRENHAM, TEN, Feb. 5.-The Assistant Sergeant-at-Arms, Colonel D. S. Corsar, sent down here by the United States Senate subcommittee to summon witnesses in the investigation of alleged outrages committed in this county last November arrived to-day and will proceed to serve his uppornas to morrow. He has a subparna with twenty-eight names given by Hackworth for the prosecution, but he will not divulge who the names are, having been instructed not to rever them. The defense are allowed twesty-eight witnesses instead of thirty heretofore reported. Colonel Gidding will fill the blank subpareas brought by the Sergeantat-Arms for the purpose. The subpenas are returnable Monday, the 14th inst. Colonel Corsar says the sub-committee, under the resolution passed by the Senate, have the power to sit juring vacation, and that it is very probable that other witnesses will be summozed during the progress of the investigation if it is found necessary by either side to rebut testimony which they cannot do with the witnesses in attendance, and the investi-gation is fikely to continue after Congress

Morris' Cascarine is a positive cure for dyspensia. Pleasant to take mild in ac-tion and unfailing in cure.

A gentleman writes to Fort World from Plano, asking a committee from this city and Grapevine to meet there and pull for the St. Louis, Arkansas and Texas. Collin county and Plano will do what they should, the letter states. Grapevine is ready to do her part, and the Greenville committee has written to Fort Worth saying they are ready.
